### In Memoriam

DAVEY--In loving memory of our dear sister, Mrs. Chas. Davey, Victoria Rd., Ont., who passed away July 31st, 1942.

Happy hours we once enjoyed; How sweet her memory still. But death has left a loreliness. This world can never fill.

Lovinely, remembered by Brother.

Rev. and Mrs. R. D Harmer are spending holidays with friends at several points in Oniario.

## "...There She Goes!"

VES, there goes the whistle that means YES, there goes the whistle that means jobs lbu remember! Factory whistles will keep blowing ... smoke will keep pouring from factory chimages, only if you and all of us do our part to keep Canada's dollar sound. And unless we keep the Canadias dollar worth a dollar, we're headed for inflation, and its inevitable result—depression!

Canada's active fight against inflation is a canadias allour post-war planning. We Canadians must now—more than ever now—fight to keep Canada's dollar worth a full dollar!

Why now especially? Because now civilian goods are scarce, and yet money is plentiful. This is a dangerous condition.

It means we must maintain controls and It means we must maintain controls and price ceilings; support rasioning and urge the support of rationing. We must buy wisely and with the greatest care: be on guard at all times, checking, working gibhing to keep Chinada's dollar sound. If we do this, we can keep prices from rision if we don't, some day we'll be paying a dollar for 30c worth of goods, which means our dollar is only user'd 50c.

We know what happened after the last war! We must fight against it happening again. For our own sakes—for the sake of again. For our own sakes—for the sake of the men who fought overseas and to whom we owe a future with a job, we must keep Canada's dollar worth a full dollar. We must keep up an active fight against inflation! Make this Pledge Today!

I pledge myself to do my part in

By observing rationing and avoiding black markets in any shape or form. biack markets in any shape or form, by respecting peice controls and other anti-inflation measures, and refinal-ing from careless and unnecessary buying. I will not buy two where one will do, nor will I buy a "new" where an "old" will do.

by buying Victory Bonds, exposering to the control of the control

### In Memoriam

CGILL - In loving memory of

GRALAERS — In memory of my dear husband, Onr. James Chalmer, who was killed in Prance, August 8, 1984. The depths of sorrow I cannot tell Of the loss of our loved as well; And while he aleeps a pescrial steep His memory I shall always keep, Remembered by wife Inabel.

ELL — In loving memory of a dear husband and father, W. C. Fell, who passed away August 8,

1944.

His weary hours and days of pain
His troubled nights are passed
And in our sching hearts we know
He has found sweet rest at last.
But still the empty chair
Reminds us of the face, the smile
Of one who once sat there.

TO KNOW YOU

ersonally

The service you receive from you bank is rendered so quietly and efficiently that the human values behind it may not have accurred to you:

Think, for instance, of the confidence you rest in your

branch bank manager, perhaps without even knowing him well personally. You ought to know him better. By depositng your money in his branch, you made him and his staff the custodians of your account and the transactions relating to it. You hold him in high trust, knowing that your private

You will find your bank manager a trained man who has come up through the ranks, and who will be giad to discuss our financial needs with you and to inform you as to the

Should you desire a personal loan to meet some unexpected

expense, talk it over with him. You can depend on receiving courteous, understanding and friendly consideration. Small loans are just one of the services your bank provides. You may be surprised to learn of many other services available

affairs will be kept private.

for your use.

appropriate service his bank can render.

# It takes more than bricks!

SOMEDAY THAT DREAM home will SOMEDAY THAT DREAM home will be pours—fryou are willing to fight for it today! Bricks may build a house, but to build a home you need more than bricks! You need security—s job—a future! And these depend on a canadian dollarthat will always buy a full dollar's worth of goods—a steady, sound out by installout That's why it's necessary NOW—more than ever now—for all of tus 10 fight and work to keep that dollar worth a dollar!

Why is it so important NOW? Because why is it so important row? Because, men is the time civilian goods are scarce, and money is plentiful. NOW is the time we must guard against paying MORE than things are worth...or buying things we don't really need. We must support

rationing, observe price ceilings, and avoid black markets. If we do this, we can keep prices from shooting sky high. If we don't, some day we'll be paying a dollar for fifty cents' worth of goods. This means your dollars—those, dollars you've saved to buy your home—will only be worth fifty cents! This is inflation!

And after inflation comes depression!
We know what happened after the last
war! It mustn't be allowed to happen
again. That's why, for our own sakes,
and for the sake of the returned men
to whom we owe a job, a future, a home of their own—we must make sure Canada's dollar remains steady. We must keep up a constant fight against our country's enemy—inflation!

# Make this Pledge Today!

The Japanese High Command revealed that the corne occupation forces would be followed two days 'r by Allied Naval forces landing at Yokosuka at the rance to Tokyo Bay. "Withdrawai of Japanese Army

# DR. AND MRS. W. R CROWE SAFE IN DOMINION AGAIN

Friends of Dr. and Mrs. W. R. Crowe, for 17 years prior to the war residents of Minden, Ont., will no doubt be pleased to learn that they are now both safely home in the Dominion and already have visited their former home town.

Dr. Crowe, it will be recalled, was taken prisoner in the battle for Crete, while Mrs. Crowe was connected with Beaver Lodge in London during seyral war years. Both are reported to be in excellent health.

sague.

Cancer is not a modern disease. The Egyptians
hew it and described it in 1,500 B.C. and Hippocrates,
te Fäther of Medicine, described the disease in 400 B.C.
di gave it the name of "cancer" which is the Latin
rms for 'crab.

s for crab. The 20th century brought a great expansion in of cancer and, as a result of findings from the es, Dr. Deadman comes to the following con-

Studies, Dr. Denuman comes to the following concern.

Cancer is a disease which has many forms and stacks any of the disease of the body:
Several causes of ancer have been found but none.

Certain chemicals which are closely related to chemicals normally in the body can cause cancer.

The theory that cancer is caused by a virus is employed, but has not been proven as regards hum-

cancer;
It is doubtful that heredity is a factor in human

encer;
Surgery and X-ray (or radium) are the recognized seans of treatment. Early cases which have not spread own the primary site are hopeful cases, and more than \$\frac{1}{2}\$. Of the early cases can be cured. The earlier the sace, the better the chance of cure.

# A STATEMENT REGARDING GASOLINE QUALITY

Imperial Oil Limited will commence supplying ESSO EXTRA and 3-STAR Gasolines of their Pre-War high quality to Motorists Farmers and other consumers throughout Canada at the earliest possible moment.

Due to production and distribution problems involved there will necessarily be some delay. Gasoline users can be assured that no effort is being spared to hasten this change.

Imperial Oils extensive Wartime Research and Development will result as soon as possible in Imperial Gasoline surpassing Pre-War standards.

Imperial Oils Production facilities are unequalled in Canada and motorists and others can consequently depend on Imperial Oil just as they have always been able to depend on Imperial Oil for the very best Petroleum products available.

Low Cost

my son the value of life insurance."

Life Insurance Since 1869

REPRESENTATIVES:-

R. A. Magahay

"I AM A BANKER, the father of a sen, and a policyhelder in The Mutual Life of Canada. Many years ago my father, who
was also a banker, and who saw directly how life insurance

can benefit men and women in many ways, impressed on mee
the value of life insurance. He obtained a policy for me
when I was a child, and when I started to work in a bank in my early

twenties I purchased another \$1,000 policy with The Mutual Life. "WHEN I MARRIED I insured again, for a larger amount, to give my wife the protection she needed. I chose 20 Pay Life insurance, preferring that plan because I have to make only twenty payments of the same amount, during my best earning years, and then my insurance will be paid-up. When I am ready to retire I can, if I wish, use the each value of my insurance to purchase a monthly in realizing the wisdom of my father's advice and am teaching

NEW ROTATING REFRIGERATOR WILL COOL BY SUMMER AND HEAT BY WINTER

D HEAT SY WINTER
An article appearing in a recent issue of the New
k Times tells of a sensational development in the
for refrigeration. It is a rotating refrigerator that
been invented by Prof. J. B. Roebuck, of the Univerof Wisconsin which is capable of cooling a gas
n to minus 270 degrees Fahrenheit or which by reing the rotor could be used as a heating unit in

versing the rotor could be used as a heating unit in momes. It is no openition of the refrigeration, which recombines a drain, like Times outlines the collowing general principles of refrigeration and then describes the revolutionary system discovered by Pot Robeuck: In mechanical refrigeration is compound some of the revolutionary system discovered by Pot Robeuck: In mechanical refrigeration is compound some or at a low temperature. After it is compressed by a motor that low temperature and the system of the state of t

flows to coils within the rotor, the gas expands, its heat seasons to the coils within the rotor, the gas expands, its heat seasons to the gas mere rises during compression, but remains containt. Only the heat which he gas that flows through the coils back to the centre of rises and the rotor through the coils back to the centre of rises and the rotor through the coils back to the centre of rises are the rotor to the coils and the rotor to the rotor to the rotor to the rotor through the rotor to the rotor to the rotor through the rotor the rotor the comment of the rotor the rotor
